Architectural floor plan of a building with 10 units, showing heating and cooling systems. The plan includes room layouts, furniture, and technical annotations for heating (H150, H110) and cooling (S1-S10). The units are arranged in two rows of five. The left row units are labeled S1 through S10, and the right row units are labeled S1 through S10. The plan shows various rooms including living areas, bedrooms, and bathrooms. Heating systems are indicated by red lines and labels (H150, H110), and cooling systems are indicated by green lines and labels (S1-S10). The plan also shows furniture such as beds, sofas, and tables. The overall layout is symmetrical, with a central corridor and stairs.

Architectural floor plan of a residential building, showing multiple rooms and their layouts. The plan includes technical annotations for heating and cooling systems, such as radiators (K), valves (V), pumps (PR), and manifolds (MN). The plan is divided into sections by dashed lines, and various rooms are labeled with numbers (S1-S10) and technical specifications (HT150, HT110). The plan also shows furniture layouts, including beds, sofas, and tables. The overall layout is a long, narrow strip of rooms, with a central corridor and multiple entrances/exits.
